### Explanatory Note.

*(This Note is not part of the regulations, but is intended to indicate their general purport).*

These regulations rescind and replace regulation 12 of the Nurses Registration Regulations and amend the Fifth Schedule to these regulations.

The new regulation 12 provides that student nurses who are due to complete their training during the month in which either the preliminary or final examinations are held, shall be eligible to enter for the examination although they will not have completed the full period of one or three years respectively until the end of the month in which the examination is held.

3. This regulation also provides that no student nurse who has three times failed either the preliminary or final examination may attend such examination again in the future. A student nurse who has twice failed her final examination is now required to undergo a further period of training before she is allowed to enter for the examination for the third and last time.

4. The opportunity has also been taken to delete from the Fifth Schedule to the existing regulations all matter not relevant to the syllabus of subjects for the preliminary and final examinations as regulation 10 of the existing regulations provides that it is the syllabus of subjects for examinations that are contained in the Fifth Schedule. COUNCIL CHAMBER,  
12th May, 1959.

  
Clerk of Councils.

### Explanatory Note.

(This Note is not part of the regulations, but is intended to indicate their general purport).

The introduction of these regulations is complementary to the enactment of the Pearl Culture (Control) Ordinance, 1958. The regulations are intended to make specific provision for licensing and collection of royalties. In addition they provide for the keeping of proper accounts by the licensees and the rendering of half yearly returns to the Director. Provision is also made for the proper marking of cultivation areas and rafts for the information of shipping and in certain cases for the identification of the rafts. Finally for the better conservation of the natural stocks of pearl oysters, regulation 18 enables the Director by Gazette notification to prohibit altogether the collection of pearl oysters or to restrict the number which may be collected in particular areas during specified periods or seasons.
